## Fostering collaboration across disciplines and generations

The **ESF Research Conferences Scheme** provides the opportunity for leading scientists and young researchers to meet for discussions on the most recent developments in their fields of research. It acts as a catalyst for creating new synergistic contacts throughout Europe and the rest of the world.

## CO<sub>2</sub> Geological Storage: latest progress

The aim of the conference will be to assess the **advances** made over the last decade in the field of **CO<sub>2</sub> Geological Storage** and the **future challenges** that must be faced.

This **5-day** conference will **stimulate intellectual exchange**, especially among young researchers, and **facilitate contacts and future collaborations**. In all, 120 participants will be hosted.

**Speakers will be invited** from among the **most eminent researchers** on CO<sub>2</sub> Geological Storage in Europe and across the world.

**Young researchers** are particularly welcome to attend the conference and participate in the poster sessions. Special grants will be available to cover conference fees and possibly part of travel expenses.

**April 2009:** release of programme and opening of applications
